Diocese of La Crosse Catholic Unified School Systems Accounting Policies and Procedures Manual

Chapter Four: Budgeting Process

A. Policies

It is the policy of the Diocese of La Crosse Catholic Unified School Systems that each system operates under an annual budget. This budget is to be prepared and approved by the Finance Committee prior to the beginning of the fiscal year. Policy also requires that the budget be balanced which includes a minimum \$100,000 payment for outstanding loans or Accounts Payable balance to St. Ambrose Financial Services, Inc.. Catholic School policy 7101 requires each school to develop a 5-year strategic plan and update it yearly. Two components of the strategic plan are enrollment and finances. A "bottom up" approach to budgeting is recommended. This means that budgeting should start at the building level, adding school administration costs, and finally combining at the Central Office. This type of budgeting allows input at all levels and usually results in a more accurate and realistic budget. In addition, employees are more likely to operate within a budget they have helped create.

B. Procedures

A budget can be prepared in a variety of ways, either manually or electronically using a spreadsheet in Excel. Using a spreadsheet is recommended as it minimizes errors and allows for flexibility during the preparation process. The following procedure can be used when preparing a budget.

- 1. Several months prior to the end of the calendar year (October or November), conduct a meeting with all Principals and department heads to discuss the budgeting process. Areas of responsibility, the types of expenses to be budgeted, and the timetable should all be discussed.
- 2. Give a **Budgeting Worksheet** to each person responsible for a budget. The budgeting worksheet should list each general ledger account for which the person is responsible, the year to date balance, and perhaps an annualized amount for convenience. It should contain space after each account in which s/he can enter the budget amount.
- 3. Prepare an spreadsheet which lists all general ledger accounts. Each school within the System should have its own column. The administrative costs of a Central Office are entered in a separate column. It is helpful if the spreadsheet is formatted similarly to the financial statements.
- 4. As budgets are received, enter the amounts into the spreadsheet.
- 5. Review the budget in total and make adjustments as required.
- 6. The budget should be reviewed and approved by the school Principals, the Controller, the President, the Dean, and the Finance Committee. The preliminary budget is due mid-December to the Coordinator of Finance for Catholic Unified School Systems. Refer to the Diocese of La Crosse Catholic Unified School System and Parish School Governance book "President's Authority".

C. Budget Amendments

Budget amendments are rare and should only be considered if a substantial change in operations has occurred (i.e. school closing). In the case of a substantial change, it is a good idea to update the budget to more accurately reflect expected financial results. If the budget is not amended, errors or trends that would normally be caught in the monthly review are hidden or explained away because of the substantial change in operations. Updates to the budget must be submitted and approved by the Coordinator of Finance for Unified Catholic School Systems. To update a budget, create a copy of the original budget and make the changes. Keep the original and write "superseded" and the date of the budget update.

D. Budget Deadlines

It is the policy of the Diocese of La Crosse that each Unified Catholic School System submit an annual budget for Diocesan review and approval. Proposed tuition rates and revenue projections are due the second Wednesday in December. Proposed teacher salary scales, non-teacher salary and hourly rate increases and an initial line item budget are due the third Friday in February.

The Wisconsin Parental Choice Program requires schools to complete a budget by July 1 of the fiscal year. If the actual third Friday in September pupil enrollment count varies to either the budget total pupil enrollment or Choice pupil enrollment by the lesser of 20 pupils or 20%, the school is required to create a budget revision using the actual third Friday in September pupil enrollment. The deadline for the budget revision is November 1. The WPCP budgets are reviewed during the Fiscal and Internal Controls Practices Report audit that is usually conducted in the month of November.

Each system is required to enter their budget into Abila/MIP by August 1 of the fiscal year. Each month each system is required to email a Statement of Financial Position (balance sheet – containing current year balance and prior year balance) and a Statement of Activities (income statement – containing current year, prior year and budget column headings) to the Finance Coordinator in the Office for Catholic Schools.
