Bulletin Announcement

Options for Women Menomonie is a pregnancy resource center providing a safe and confidential environment where women can find support throughout their pregnancy and during the early parenting years. This support is not only material (baby items such as diapers, cribs, car seats, clothing, etc.), but also emotional, mental, and spiritual support. We walk with women through their life challenges, providing education and information, equipping them to make good life decisions and be the best parents they can be. All services are at no cost, and include pregnancy tests, options information, prenatal and parenting education, and grief and trauma support and healing. Located at 544 Broadway St. Suite #404, Menomonie, WI 54751 Phone: 715.222.0777

How people and parishes can help.

Our greatest needs are funds and volunteers who want to mentor clients. Our church liaison is Deb McHenry 715-559-2189. We currently have one volunteer from St. Joseph Parish in Menomonie. This parish has had 2 baby bottle drives since 2017 to support us. The Knights have made a donation too. But with Covid most things have not restarted. Some St. Joseph parishioners donate on an individual basis. Another parish, St. Henry's Parish in Arkansaw, WI, has donated and supported and was part of the Helping Moms in Need group.

Do you dispense Contraception?

We do not dispense contraception of any kind, and we do not refer for contraception or abortion. We educate clients about how the various birth control methods and devices work, and we encourage clients to use natural family planning.
