A Track is a collection of workshops. A workshop is usually 6, 10-minute videos that equals roughly one hour of video, with discussion questions after each video. An automated response after each video segment will be shown when your response is typed in "Your Answer" box and Saved. These automated responses are well worth reading, as they capture the key points and includes aspect that were possibly missed. Two videos with corresponding discussion can be completed in an hour.

Note: Small groups are the **proven** way to experience the workshops. The richness of the content shines out in the discussion, while meeting regularly provides accountability.
