# Delivering quality seed to Wisconsin farmers for 27 years.

- Project Seeds is a family-owned Onalaska, Wisconsin company.
- Seed is grown near La Crosse on our family farm and at other family-owned seed farms in five states.
- Our seed costs you less because:
  - We don't sell through salesmen which means no sales commissions paid.
  - Delivery expenses are minimal because customers pick up their seed at these predesignated pick-up locations (see back cover for location information):  
**Richland Center - March 9; Stanley - March 16; Colby - March 30, and Cassel - April 6**
  - Full pallets can be delivered direct to your farm.
  - Our research costs are lower than other companies because we only spend money on testing hybrids in Wisconsin. We use 17 different research locations in Wisconsin to screen corn hybrids best adapted to this state.

**All seed is tested and guaranteed for purity, warm germination, cold germination, and uniformity of emergence.**

Thank you for considering our products and please call with questions - you will speak with one of the owners!

## PRICES & PAYMENT

### There are three options:

- Order and pay by **January 15, 2024** and save up to \$20 or more off the retail price.
- Order by **March 1, 2024** and pay at delivery day and save \$10/bag off the retail price.
- Order after March 1, 2024 - still a great price!

## CODE KEY

**CONV** . . . . Conventional seed w/fungicide

**GT** . . . . . Glyphosate tolerant

**GTCBLL** . . . Glyphosate, corn borer, and Liberty Link tolerant

**GTCBLLBL** . Glyphosate, corn borer, Liberty Link tolerant, and Vipera protection

### PS 80-22

#### CONVENTIONAL

#### 80 Day Hybrid

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$124	\$134	\$144

- Plant on your challenging fields
- Larger plant will add to the silage pile
- High quality grain

### PS 84-21

#### CONVENTIONAL

#### 84 Day Hybrid

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$124	\$134	\$144

- Quickly becoming our #1 hybrid
- True racehorse genetics that will compete with anything in its zone
- Pays you back with higher yields with extra inputs
- OK agronomics. Harvest when ready

## INTRODUCTORY PRICE

### NEW PS 8925

#### CONVENTIONAL

#### 84 Day Hybrid

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$110	\$120	\$130

- The best choice for your tough fields
- Low management: Works under a wide variety of soils, populations and fertility
- Awesome silage north of the 84-day zone

**PS 21-84 GT****84 Day Hybrid**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$179	\$189	\$199

- Resistant to Roundup®
- Great early vigor makes this a good choice for no-till
- Fast drydown means it moves north of the 84-day zone
- Extremely high yielding with high fertility
- Good choice for corn-on-corn

Locations	Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb
9 states	PS 21-84 GT	202.3 bu	18.5%	0.3	55.7
	PS 21-88 GTCBAW	204.0 bu	18.2%	1.0	55.6
	PIONEER 8542AM	199.7 bu	18.5%	3.4	55.7

**PS 20-88 GTCBLL****88 Day Hybrid**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$189	\$199	\$209

- Resistant to Roundup® and corn borer
- Consistent yielder on a wide variety of soils
- Fast grain set up and drydown
- Tall plant with very flexible ears
- High fertility = High yield

Locations	Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb
43	PS 20-88 GT	200.4 bu	18.8%	4.1	58
	DeKalb 39-28	193.8 bu	18.4%	3.1	57.5

	Pioneer 9188AM	202.5 bu	19.6%	1.6	58.6

**PS 88-21****88 Day Hybrid****CONVENTIONAL**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$124	\$134	\$144

- Newer genetics capable of very high yields
- Produces nice test weight grain that dries fast
- Great choice for colder soils
- Can be used north of the 88-day zone as full season hybrid

**PS 23-91 GTCBLL****91 Day Hybrid**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$189	\$199	\$209

- Resistant to Roundup® and corn borer
- Racehorse yielder on productive soils with good fertility
- Extremely fast out of the ground
- Plant at medium to high populations on all soil types
- Excellent stalks

Locations	Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb
5 states	PS 23-91 GTCBLL	219.4 bu	21.6%	2.9	55.4

**PS 92-22****92 Day Hybrid****CONVENTIONAL**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$124	\$134	\$144

- Out-yields many of the high-priced GMO corns
- Extra fertility really pays off on this hybrid
- Stands until the end
- Place on your "best" field

**PS 19-93 GTCBLLBL****93 Day Hybrid**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$194	\$204	\$214

- Resistant to Roundup® and most above ground pests
- Very versatile on areas of adaption east, west, north, south
- Works on all soil types
- Agrisure Artesian technology, very water efficient when needed
- Great choice for early silage, less mold from ear worm damage

Locations	Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb

**PS 94-C CLASSIC****94 Day Hybrid****CONVENTIONAL**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$110	\$120	\$130

- Been around for 17 years because it works!
- Works on all soil types
- Solid performer under all conditions, wet year, dry year, hot year, cold year...
- Management tip - just plant it and harvest when ready

**PS 95****95 Day Hybrid****CONVENTIONAL**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$134	\$144	\$154

- High yields combined with very good stalks makes this a great grain hybrid
- Long full flex ears
- Excellent stay green
- Big yield punch with solid agronomics
- Will deliver high tons of energy packed silage
- **2022 Jackson MN Research Plot: 261 bu/acre – 3rd place out of 60 entries!**

**PS 22-97 GT****97 Day Hybrid**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$179	\$189	\$199

- Resistant to Roundup®
- Rapid emergence makes good choice for no-till fields
- Race horse yields combined with stable performance
- Above average plant health
- Wide plant leaves help keep late season weeds in check
- Will make a large quantity of excellent quality silage
- Tender pink cobs

**INTRODUCTORY PRICE****NEW PS 100-24****CONVENTIONAL****100 Day Hybrid**

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$110	\$120	\$130

- Great agronomics to protect the yield
- Will maximize yield on high fertility/high population
- Good choice for corn on corn
- Tough enough for lighter soils

# Alfalfa Seed

## Commander Alfalfa Project Seeds CLASSIC

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$160	\$175	\$185

A hardy alfalfa bred and grown in the north where winters are nasty. Commander has an 13-year track record in Wisconsin with excellent yields year after year after year. It's a multi-leaf variety that makes excellent quality hay when cut pre-bloom. Cut it later when you're going for high tonnage. If you want a long lasting alfalfa – this is your choice.

## HDA 200 Lo-Lignin

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$209	\$229	\$239

The highest yielding, fastest regrowth alfalfa around. The fast regrowth combined with 15% less lignin in the plant gives you maximum digestible tonnage. You will not see stems left in the manger – cows eat it all. HDA 200 not only out-yields the other low lignin alfalfas but also beats the best high-priced alfalfas in the dairy belt.

### HDA200 Reduced Fiber Head-to-Head Forage Yield Summary

Variety	Total Tons	Percent Advantage	Harvest Years	HDA 200 Extra Tons/Year

## Trifecta Alfalfa

Pay By 1/15/24	Order by 3/1/24	Order at Delivery Day
\$209	\$229	\$239

Equal parts of Lo Lignin 200, Rapid Fire, and Wett Foot. When you mix different lines of alfalfa together you get a positive effect on yield and ability to withstand a wide variety of growing conditions.

- Lo Lignin 200–Has about 15% less lignin making it the most digestible alfalfa on the market
- Rapid Fire–Extremely fast regrowth gives you the highest possible yields beating five of the biggest name, highest priced alfalfa for sale anywhere in the US
- Wett Foot–A branched root, multi-leaf alfalfa that withstands the multiple disease pressure found in water logged soil.

## Alfalfa Characteristics Chart

Alfalfa Brand	Yield Potential	Quality Potential	Winter Survival*	Fall Dormancy**	Disease Resistance Index	Bacterial Wilt	Phytophthora Root Rot	Fusarium Wilt	Anthraxnose	Verticillium Wilt	Aphanomyces Root Rot Type I	Aphanomyces Root Rot Type II	Recovery Rate
Commander	9.5	8.0	1.5	3.0	31/35	HR	HR	HR	HR	HR	R	NR	9.0
HDA 200	10	10	1.9	4.2	33/35	HR	HR	HR	HR	HR	HR	MR	9.5
Trifecta	9.7	9.6	1.8	4	33/35	HR	HR	HR	HR	HR	HR	HR	9.6

\* The lower the number, the more winter hardiness

\*\* The higher the number, the less dormant

### Resistance

HR = Highly Resistant

MR = Moderately resistant

R = Some Resistance

LR = Low Resistance

NR = No Resistance

## Clover

### DC-990 Red Clover

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$165	\$175	\$185

- If you want clover that will last longer – then use this
- If you want clover with larger leaves – then use this
- If you want clover that yields more (three cuttings) – then use this

One of the best improved varieties used today - 50 lbs. of seed – no lime coatings

### Free Spirit Red Clover 25 lb bag

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$128	\$143	\$148

- New high yielding AND fast drying
- Faster drying than other red clovers
- Lasts longer than common medium reds and is higher yielding than the common reds.

### Rudy Red Clover – Coated

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$125	\$140	\$150

Good option for forage – better on wetter soil than regular alfalfa. Three year/three cut type of clover.

## Grasses

### CheckMate Orchardgrass

#### 25 lb Bag

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$74	\$90	\$95

A late maturing orchard grass that makes a good mix with alfalfa to give you a high quality feed that will dry faster than straight alfalfa.

### Timothy

#### 50 lb Bag

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$75	\$80	\$90

Climax Timothy – a proven performer in Wisconsin.

*Prices may change based on weather-related shortages.*

## Grass Mixes

### Alfalfa Mix

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$142	\$157	\$162

A combination of coated Multi-Leaf 303 and 20% Climax timothy.

80% Multi-Leaf 303 Alfalfa  
20% Climax Timothy

### Forage Mix

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$142	\$157	\$162

Three-way combination of alfalfa, timothy and medium red clover.

60% Multi-Leaf 303 alfalfa  
20% Medium Red Clover  
20% Climax Timothy

### Clover Mix

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$129	\$144	\$149

Combination of medium red clover with timothy.

80% Medium Red Clover  
20% Climax Timothy

### Premium Grass Mix

Pay By 1/15/24	Order By 3/1/24	Order at Delivery Day
\$135	\$150	\$155

A mix of later maturing grasses. Use as a base for all ruminants - either graze or hay. Add legumes if you want a nitrogen source for the grass.

25% Tetraploid Perennial Ryegrass  
25% CheckMate Orchardgrass  
25% Festulolium  
15% Climax Timothy  
10% Italian Ryegrass

Please pre-order – even if you’re not paying early so we have the seed you need at the delivery site.

Numerical Ratings

- 10 = Excellent
- 9 = Very Good
- 8 = Good
- 7 = Average
- 6 = Less than Average

Ear Flex

- Full Flex = Gets longer and girthier at medium populations
- Semi-Flex = Gets longer and girthier at low populations
- Fixed = Stays the same size at medium and high populations. Must be planted at 10% higher populations to maximize yield.

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post emergent weed control of Liberty® herbicide for optimum yield and excellent weed control. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS: Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate.
