

# Invite *One* Back Initiative

The United State Conference of Catholic Bishops encourages us to notice who is missing. Many people yearn to become an active member again of our parish community. The first aspect of inviting people back to church is identifying who no longer participate in parish life. Is there someone who used to be a regular church-goer that you haven't seen for a while? Was there someone that used to be near you in the pew or who used to volunteer alongside you, who has fallen away and could benefit from someone reaching out to them? Please help us by filling out any information you know on a very important missing parishioner.
