Evangelization in the Age of Polarization: Practical Tips to Foster Respectful and Productive Classroom Conversations That Change Minds - start at 12:00 and end at 2:30.

Location: Regis Catholic High School Room

Presenter: Emily Geiger, Director of Education & Outreach for the Equal Rights Institute

Description: Emily, a leader in using ERI's apologetics to foster respectful and productive dialogues about abortion, will work with you to learn how to work with high schoolers who are bombarded by pro-choice culture. Emily understands it feels impossible to have meaningful conversations about controversial issues like abortion. But, rather than resort to angry debate or just avoid the topic, Emily wants students to be able to dialogue thoughtfully. This session will be especially helpful for those classrooms where students hold diverse political and religious viewpoints. How can we foster thoughtful, compassionate, and critical thinkers who engage in difficult conversations with respect? Emily will work to help you form students into adults who think through important issues for themselves and apply Catholic values to their daily lives.

Trauma Informed Care - start at 12:00 and end at 2:30.

Introduction to AI

Location: Regis Catholic High School Room

Presenter: Jamie Dodge, McDonell Area Catholic Schools – St. Charles Borromeo School, Principal

Description: Artificial Intelligence is reshaping education, but Catholic schools must approach it with clarity, intentionality, and a strong sense of mission. This session will introduce teachers and principals to practical ways AI can be used effectively, efficiently, and faithfully—without overwhelming or replacing the uniquely human role of the Catholic educator.

We will focus on three key areas where AI can provide the greatest support:

1. **Lesson Planning & Curriculum Design** – Using AI as a creative assistant to generate ideas and resources while aligning everything with Catholic identity and virtue formation.
2. **Communication & Administration** – Streamlining parent newsletters, emails, and reports so more time is freed for personal connection and leadership.
3. **Faithful Discernment** – Understanding the limitations of AI, ensuring its use respects human dignity, and modeling to students how technology can be used wisely and ethically.

By keeping our use of AI focused, Catholic educators can reclaim valuable time, strengthen relationships, and stay rooted in their mission of forming disciples of Christ.

Special Note: Participants need to bring a tablet or laptop to access the internet.
