Rooted in Research, Proven in the Field

Locations in Iowa, Minnesota and Wisconsin where we test current hybrids and possible new releases.

Why do our hybrids yield with the big-name companies' best corns?

RESEARCH!

We spend more per bag on testing and genetic royalties than most companies in the corn belt!

Each test site shown on the map has 60 current and possible new hybrids including eight Pioneer and DeKalb used as yield checks.

PRICES & PAYMENT

There are three options:

- Order and pay **by January 15, 2026** and save \$20 or more off the retail price.
- Order **by March 1, 2026** and pay at delivery day and save \$10/bag off the retail price.
- Order **after March 1, 2026** - still a great price!

Pre-ordering seed helps ensure we will have what you need on designated pick-up dates.

Customers pick up their seed at these pre-designated pick-up locations and dates:

(See back cover for more information)

Richland Center – March 14

Stanley – March 21

Colby – March 28

Cassel – April 11

Seed delivered to individual farms will have a delivery charge added.

CORN HYBRIDS

PS 80-22

CONVENTIONAL

80 Day Hybrid

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$124	\$134	\$144

- Plant on your challenging fields
- Larger plant will add to the silage pile
- High quality grain

PS 84-21

CONVENTIONAL

84 Day Hybrid

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$124	\$134	\$144

- Adapts well to cooler soils in the north
- True racehorse genetics that will compete with anything in its zone
- Pays you back with higher yields with extra inputs
- OK agronomics. Harvest when ready

PS 8925

CONVENTIONAL

84 Day Hybrid

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$110	\$120	\$130

- The best choice for your tough fields
- Low management: Works under a wide variety of soils, populations and fertility
- Awesome silage north of the 84-day zone

CODE KEY

CONVENTIONAL. Conventional seed w/fungicide

GT Glyphosate tolerant

GTCBLL Glyphosate, corn borer, and Liberty Link tolerant

GTCBLLBL Glyphosate, corn borer, Liberty Link tolerant, and Viptera protection

PS 25-84 GT**84 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$189	\$199	\$209

- Resistant to Roundup®
- Agrisure Artesian technology – adds yield through efficient use of water and nutrients
- Great early vigor
- Above average stalks and roots for harvest flexibility

Locations	Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb
28	PS 25-84 GT	186.6 bu	20.9%	4.5%	59
	Pioneer P8761AM	177.2 bu	20.8%	10.0%	57.7
40	PS 25-84 GT	183.8 bu	20.0%	4.2%	59.6
	DeKalb DKC38-03	181.6 bu	19.6%	5.9%	57.6

PS 20-88 GTCBLL**88 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$199	\$209	\$219

- Resistant to Roundup® and corn borer
- Consistent yielder on a wide variety of soils
- Fast grain set up and drydown
- Tall plant with very flexible ears
- High fertility = High yield

Locations	Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb
43	PS 20-88 GT	200.4 bu	18.8%	4.1%	58
	DeKalb DKC39-28	193.8 bu	18.4%	3.1%	57.5
45	PS 20-88 GT	200.7 bu	18.8%	4.1%	58.2
	Pioneer P9188AM	202.5 bu	19.6%	1.6%	58.6

PS 88-21**CONVENTIONAL****88 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$129	\$139	\$149

- Newer genetics capable of very high yields
- Produces nice test weight grain that dries fast
- Great choice for colder soils
- Can be used north of the 88-day zone as full season hybrid

PS 90-25**CONVENTIONAL****90 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$129	\$139	\$149

- Our choice for high and medium yield conditions
- Excels at higher populations
- Fast out of the ground
- Consistent-sized fast-drying ears
- Keep in 90-day zone or north of zone

Locations	Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb
73	PS 92-22	207 bu	20.2%	.7%	55.5
	PS 90-25	214.7 bu	19.4%	0%	56.1
94	PS 90-25	208.6 bu	19.6%	.5%	56
	Pioneer P8736AM	196.9 bu	19.1%	.4%	55.9
35	DeKalb DKC 39-55	209.6 bu	19.1%	0%	56.5
	PS 90-25	222.8 bu	19.3%	.7%	56.4

PS 22-91 GTCBLL**91 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$199	\$209	\$219

- Resistant to Roundup® and corn borer
- Bred for highly productive soils
- Above average emergence and vigor
- Moves north very well – plant at medium population

Locations	Hybrids	Yield	Moisture%	Stalk Lodging %	Test Wt Lb
60	DeKalb DKC43-10RIB	218 bu	20.5%	1.1%	55.4
	PS 22-91 GTCBLL	216.9 bu	20.5%	4.0%	55.3
123	PS 21-84 GT	205 bu	19.5%	.5%	55.8
	PS 22-91 GTCBLL	215.6 bu	20.2%	.8%	54.5

PS 25-91 GT Viptera**91 Day Hybrid**

Pay By 1/15	Order by 3/15	Order at Delivery Day
\$204	\$214	\$224

- Roundup® resistant and contains Viptera™ traits
- Widely-adapted high-yielding hybrid with Artesian® technology
- Excellent stalk strength and ear flex; will handle all populations
- Excellent corn for no-till (colder soils)

Locations	Hybrids	Yield	Moisture%	Stalk Lodging %	Test Wt Lb
109	PS 25-91 GT Viptera	197.3 bu	21.9%	.8%	58.2
	DeKalb DKC39-55	194.1 bu	20.4%	.6%	67.8
35	PS 25-91 GT Viptera	192.4 bu	21.8%	.5%	58.1
	Pioneer P8989 AMPS	180.9 bu	20.3%	3.5%	57.6
41	PS 25-91 GT Viptera	203.8 bu	22.3%	1.7%	57.9
	Pioneer P9193 AM	203.0 bu	20.8%	11.2%	58.8

PS 94-C CLASSIC**CONVENTIONAL****94 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$110	\$120	\$130

- Been around for 19 years because it works!
- Works on all soil types
- Solid performer under all conditions, wet year, dry year, hot year, cold year...
- Management tip - just plant it and harvest when ready

PS 95**CONVENTIONAL****95 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$124	\$134	\$144

- High yields combined with very good stalks makes this a great grain hybrid
- Long full flex ears
- Excellent stay green
- Big yield punch with solid agronomics
- Yield only limited by your soil and fertility

NEW PS 26-95 GT**95 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$189	\$199	\$209

- Roundup® resistant
- Consistent performance across environments
- For your best fields = high yield potential
- The best stay-green in the industry

Locations	Hybrid	Yield	Moisture%	Stalk Lodging%	Test Wt Lb	Root Lodge %
208	PS 26-95 GT	220.2 bu	18.2%	1.4%	57.2	1.3%
	Pioneer 9492 AM	221.0 bu	17.5%	.3%	56.8	.4%
104	PS 26-95 GT	229.4 bu	18.3%	.6%	57.8	.8%
	DeKalb 44-98	227.1 bu	18.1%	.5%	57.7	.3%

PS 22-97 GTCBLL**97 Day Hybrid**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$199	\$209	\$219

- Resistant to Roundup® and corn borer
- Rapid emergence makes good choice for no-till fields
- Race horse yields combined with stable performance
- Above average plant health
- Wide leaves help keep late season weeds in check
- Will make a large quantity of excellent quality silage
- Tender pink cobs

PS 100-24**100 Day Hybrid****CONVENTIONAL**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$110	\$120	\$130

- Great agronomics to protect the yield
- Will maximize yield on high fertility/high population
- Good choice for corn on corn
- Tough enough for lighter soils

Hybrids	Yield	Moisture%	Stalk Lodging%	Test Wt Lb	Root Lodge %
PS 100-24	224 bu	22.8%	2.6	55.1	1.6
DKC 52-30 RIB	202.1 bu	21.3%	2.1	56.2	0.0
PS 100-24	215.3 bu	20.8%	4.7	55.5	1.0
Pioneer 0157 AM	209.4 bu	19.6%	2.7	57.3	2.1

PS 101**101 Day Hybrid****CONVENTIONAL**

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$129	\$139	\$149

- Large plant with large ears
- Tender white cob; cows love it
- Excellent silage option
- Huge flex ears with highly digestible grain
- Outstanding whole plant digestibility means higher intake

PS 03-25

103 Day Hybrid

CONVENTIONAL

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$129	\$139	\$149

- Very large structured plant
- Very tall with large flexed ear
- Plant it thick for high silage tonnage
- Highly digestible soft textured grain on soft pink cobs

PS 22-05 GT

105 Day Hybrid

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$179	\$189	\$199

- Resistant to Roundup®
- Wide leaves with a full canopy
- Very tall and healthy hybrid
- Excellent silage choice, also a great grain hybrid
- Stands well allowing for a long harvest window

Silage Testing

Milk Per Acre	Milk Per Ton	Starch	5 NDF 30 HR
41,332	3,291	39.8%	542%

Alfalfa Seed

Pre-inoculated pure seed with no fluffy coatings added

Project Seeds CLASSIC

Commander Alfalfa

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$170	\$180	\$190

A hardy alfalfa bred and grown in the north where winters are nasty. Commander has a track record since the 90's with excellent yields year after year after year for Wisconsin. It's a multi-leaf variety that makes excellent quality hay when cut pre-bloom. Cut it later when you're going for high tonnage. If you want a long-lasting alfalfa – this is your choice.

HDA 200 Lo-Lignin

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$219	\$229	\$239

The highest yielding, fastest regrowth alfalfa around. The fast regrowth combined with 15% less lignin in the plant gives you maximum digestible tonnage. You will not see stems left in the manger – cows eat it all. HDA 200 not only out-yields the other low lignin alfalfas but also beats the best high-priced alfalfas in the dairy belt.

Trifecta Alfalfa

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$219	\$229	\$239

Equal parts of Lo Lignin 200, Rapid Fire, and Wett Foot. When you mix different lines of alfalfa together you get a positive effect on yield and ability to withstand a wide variety of growing conditions.

- Lo Lignin 200–Has about 15% less lignin making it the most digestible alfalfa on the market
- Rapid Fire–Extremely fast regrowth gives you the highest possible yields beating five of the biggest name, highest priced alfalfa for sale anywhere in the US
- Wett Foot–A branched root, multi-leaf alfalfa that withstands the multiple disease pressure found in water loaded soil.

Alfalfa Characteristics Chart

Alfalfa Brand	Yield Potential	Quality Potential	Winter Survival*	Fall Dormancy**	Disease Resistance Index	Bacterial Wilt	Phytophthora Root Rot	Fusarium Wilt	Anthraxnose	Verticillium Wilt	Aphanomyces Root Rot Type I	Aphanomyces Root Rot Type II	Recovery Rate
Commander	9.5	8.0	1.5	3.0	31/35	HR	HR	HR	HR	HR	R	NR	9.0
HDA 200	10	10	1.9	4.2	33/35	HR	HR	HR	HR	HR	HR	MR	9.5
Trifecta	9.7	9.6	1.8	4	33/35	HR	HR	HR	HR	HR	HR	HR	9.6

* The lower the number, the more winter hardiness

** The higher the number, the less dormant

Resistance

HR = Highly Resistant

MR = Moderately resistant

R = Some Resistance

LR = Low Resistance

NR = No Resistance

Clover

DC-990 Red Clover

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$173	\$178	\$188

- If you want clover that will last longer – then use this
- If you want clover with larger leaves – then use this
- If you want clover that yields more (three cuttings) – then use this

One of the best improved varieties used today - 50 lbs. of seed – no lime coatings

Free Spirit MR Red Clover (Mildew Resistant)

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$143	\$148	\$153

25 lb bag

- New high yielding and FAST drying
- Faster drying than other red clovers
- Lasts longer than common medium reds and is higher yielding than the common reds.

Medium Red Clover – Coated

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$135	\$140	\$145

Good option for forage – better on wetter soil than regular alfalfa. Three year/three cut type of clover.

Grasses

CheckMate Orchardgrass

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$80	\$85	\$90

25 lb Bag

A late maturing orchard grass that makes a good mix with alfalfa to give you a high quality feed that will dry faster than straight alfalfa.

Timothy

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$85	\$90	\$95

50 lb Bag

Climax Timothy – a proven performer in Wisconsin.

Prices may change based on weather-related shortages.

Grass Mixes

Alfalfa Mix

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$158	\$163	\$168

A combination of coated alfalfa and Timothy.

80% Alfalfa
20% Climax Timothy

Forage Mix

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$145	\$155	\$160

Three-way combination of alfalfa, Timothy and medium red clover.

60% Alfalfa
20% Medium Red Clover
20% Climax Timothy

Clover Mix

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$145	\$150	\$155

Combination of medium red clover with Timothy.

80% Medium Red Clover
20% Climax Timothy

Premium Grass Mix

Pay By 1/15	Order by 3/1	Order at Delivery Day
\$120	\$125	\$130

A mix of later maturing grasses. Use as a base for all ruminants - either graze or hay. Add legumes if you want a nitrogen source for the grass.

25% Tetraploid Perennial Ryegrass
25% CheckMate Orchardgrass
25% Cow Girl Tall Fescue
15% Climax Timothy
10% Italian Ryegrass

Please pre-order – even if you’re not paying early so we have the seed you need at the delivery site.

Steve Mohr 608-780-5460; smohr5@charter.net

Replant and returns: Corn supplied for replant is \$60 per bag off the retail price. Replant must be in the same year as the original purchase.

Delivery charges apply to replant. Seed returns are the customer's responsibility and are subject to a \$5/bag restock/rebag charge.

Seed return deadline is June 10th.

Corn Legend

Abbreviations

- EX = Excellent
- VG = Very Good
- G = Good
- AV = Average
- P = Poor

Height

- T+ = Extremely Tall
- T = Very Tall
- MT+ = Tall
- MT = Taller than Average
- M = Shorter

Drydown

- VF = Very Fast
- F = Fast
- MF = Moderately Fast
- AV = Average

Test Weight

- VH = Very High
- H = High
- MH = Moderately High
- AV = Average

Numerical Ratings

- 10 = Excellent
- 9 = Very Good
- 8 = Good
- 7 = Average
- 6 = Less than Average

Ear Flex

- Full Flex = Gets longer and girthier at medium populations
- Semi-Flex = Gets longer and girthier at low populations
- Fixed = Stays the same size at medium and high populations. Must be planted at 10% higher populations to maximize yield.

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post emergent weed control of Liberty® herbicide for optimum yield and excellent weed control. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS: Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate.
