Dear Friends,

As winter tightens its grip on Ukraine, millions of families are facing brutal cold under unimaginable circumstances. Because of Russia's ongoing aggression, homes, hospitals, and entire communities are left without stable heat, electricity, or basic necessities. Temperatures fall far below freezing, and for many, especially the elderly, children, and the wounded this cold is not just uncomfortable, it is life-threatening. What should be a season of rest and family has become a daily struggle for survival.

Through the "Warmth of Love" Winter Donation Drive for Ukraine, you have the opportunity to bring real, tangible warmth to those who are suffering. Every donated item whether it is winter clothing, blankets, medical supplies, or essential goods becomes a lifeline. These gifts travel directly to people who have lost so much, reminding them that they are not forgotten and that compassion still crosses borders, even in times of war.

Your generosity does more than protect bodies from the cold, it restores dignity, hope, and the knowledge that love is stronger than violence. On behalf of the people of Ukraine, I thank you from the depths of my heart for standing with us. Together, we can transform the cold of war into the warmth of love.

With gratitude and prayers,

Valentyna Pavsyukova
