

What We Do

Support Survivors: We foster healing and empowerment for those who have experienced sexual abuse by a Catholic leader, through support groups, retreats, and personal accompaniment.

Educate Catholics: We create opportunities for ordinary Catholics to listen to survivors' voices and thoughtfully engage with the issue of abuse in the Church.

Equip Church Leaders: We provide innovative programs and resources for priests, seminarians, and lay leaders, strengthening their ability to prevent abuse and provide trauma-informed care to survivors.

Foster Culture Change: We cultivate understanding and engagement within the Catholic community to build a safer, more compassionate Church for all.
